CITY NOTES.

Two cases of diphtheria were reported to the board of health yesterday. The elequent Samuel Dickie will lecture at the Frothingham theater tonight. A picuic will be held on June 26 by the St. John German Catholic Beneficial so-

The case of W. T. Jenkins, charged by Rev. F. A. Dony with keeping his hotel open on Sunday, was heard by the grand jury yesterday afternoon.

County Detective John Shea has re-turned from Harrisburg, where he went with Peter Walsh, of Winton, whom he placed in the state insane asylum, Marriage licenses were granted yester-day by Cierk of the Courts John H. Thomas

to David Richards, jr., and Georgia Ozeno Mickley, Scranton; John A. Jones, Scranton, and Mary Ann Davis, Nanticoke. Dr. John L. Wentz has broke ground for a handsome new residence which he in-tends to have erected on Madison avenue,

between Pine and Gibson streets. Davis & Houpt are the architects and Charles M. Lord the builder.

On Wednesday, at the home of the bride's parents, Miss Bertha C. Longshore was married to John G. Hughes by Rev. Warren G. Partridge. Mr. and Mrs. Hughes are now enjoying a wedding tour to New York and Buston.

Minnie Lester and her company produced "Silver Ledge" at the Academy of Music yesterday afternoon and "Fanchon" last night. The latter is one of the most clever delineations that Miss Lester has yet given. This afterneon and evening "Bea-con Lights" will be the attraction.

Miss Mary Malligan was married to Jacob Scull by Rev. J. A. O'Reilly in St. Peter's cathedral at 5 o'clock last evening. The bride and groom reside at Pine Brook. The former was attended by Miss Curran and the latter by Mr. Murray. Last even-ing a reception was tendered to Mr. and Mrs. Sculi at Curran's ball on New street.

The Prohibitionists say it is not often that an orator of Chairman Dickie's ability comes to Stranton, and perhaps they are right. At any rate the people can judge of his powers tonight at the Frothingham. Mr. Dickie will speak on "Obstacles to Re-form" and he will probable have a crowded house, as the admission is free. Beats may be reserved at Powell's for 15 cents.

Open All Night at Lohman's Spruce street.

WORKING FOR WORTHY OBJECT.

Successful Entertainment Given by Five Little Girls.

A party of five little girls, who call themselves the Violet club, gave a very successful entertainment last evening for the benefit of St. Luke's Dalton home at the residence of F. W. Hazzard, 823 Pine street. The programme included a march,

an address, recitations, vocal solos, dialogues, etc., which were rendered in a most acceptable manner by the fol-lowing girls individually and collec-Georgie Robins, Beatrice and something phenomenal. Trystine Morris, Grace Devine and ouise Davenport. Miss Gertrude

Morris was the accompanist.

Mrs. G. L. Masser, Mrs. Davenport,
Mrs. Deitweiler and Mrs. Morris had coached the performers and to them is due a share of credit for the excellence of the entertainment.

DR. A. E. Burn, having opened his offices in the Burr building, Washington avenue, will resume the practice of his profession, where he will be glad to serve his old patrons and public in general. **

Graded Just Yet.

When Property Owners Get Ready to Waive Damages Grading May Be Done-A Proposition Made to Sell duced and Approved.

Despite the heavy rain storm of last evening and the fact that the Barnum & Bailey show was exhibiting at the Driving Park, eighteen members at-tended the meeting of the common

The project to grade Delaware street between Sanderson and Washington ivenues received its quietus by the reection of all bids received by the city or doing the work.

The matter came before the connoil u the shape of a select council resoluion awarding a contract to Muldoon & Bowe for doing the work necessary o make the street conform to the proposed grade. Captain Moir stated that the passage of the resolution might give the city more damage suits to fight, as the property owners on Delaware street refuse to waive claims for damage that may be done their properties by the change of grade, They say that if any damages are allowed by the city they proposed to have their share.

STREET WILL NOT BE GRADED. to grade Delaware street disappeared down the dim vista of the future. When the property owners agree that

When the property owners agree that they do not want to be paid for the costly, testifying in a manner the esteem in which he was held by the many who were proud to possess his friend-ship.

A select council resolution directing the city engineer to make the assessment for the paving of Pins street between Washington and Clay avenues, was approved by the common.

The local pieces were inumerous and costly, testifying in a manner the esteem in which he was held by the many who were proud to possess his friend-ship.

"Following the singing of "Nearer My God to Thee," a selection from the beripture was read by Rev. R. S. Jones, D. D. Prayer was offered by Rev. George E Guild.

In the sermon preached by Rev. avenues, was approved by the common.

The street will be paved with sheet peter Roberts from Hebrews xii, 1-2, aspiralt except in the block between a fitting culogy was paid the deceased Jefferson and Madison avenues. "The Road to Ruin." Though on the stage for a number of years, the Mrs. Malaprop of today has ost none of the lustre given to that wonderful character by this distinguished artist over a quarter of a contury ago. The unconscious ease with which she so calmly as Mrs. Malaprop murders the English language is simply perfection. Her every gesture, every facial movement, is elequent, and as for her mai apropos they are so excruciatingly funny and amusing as to seep her audience in continual roars of laughter. So much of praise has been given in every city of the country that it has now become almost impossible to say anything that has not already been said of Mrs. Drew's Mala-

Of course, "The Rivals," is a frame ad mirably adapted to set off to the best advantage the personal charms of Mrs. John Drew, whose name will ever be associated on our stage with that of Mrs. Malaprop, and the character is as much her own as though she had shaped it out herself.

MISS CATHARINE PARKER'S READING.

Excellent Entertainment at the Y. M. C.

A. Next Tuesday Evening. Miss Catharine Parker, the well known elocutionist of this city, will give a reading at the Young Men's Christian Association hall next Tuesday evening, and for the occasion has arranged a programme of more than ordinary excellence. Miss Parker is known to Scrantonians as a reader of rare ability, and her many friends will be glad of the opportunity of hearing her in a programme where she will be the principal entertainer.

Miss Parker will be assisted by Mrs. Helen Boice-Hunsicker, of Philadel-phia, a pupil of Mme. Clarice Ziska, of Paris, and William Shakespeare, London. Mrs. Hunsicker has sung in oratorios and concerts in the principal cities of the country, and has been favorad with the very best of press notices. Tickets for Miss Parker's entertain ment may be secured at the Young Men's Christian association rooms.

INSTALLATION OF OFFICERS.

Pleasant Time in Parlors of Kim Park Church. In the lecture room of the Elm Park church last night was held a business meeting and installation of officers of he Epworth League, followed by a

collation served by the entertainment committee. After the business meeting the folowing officers were installed: G. Fred Whitemore, president; B. B. Hicks, T. D Yost, H. H. Beidleman, Miss Lizzie Raub, A. J. Caswell and Miss Alice Griffiths, first to sixth vice presidents

Interesting remarks touching upon the works and purposes of the Enworth league were made by William Conneil, G. F. Reynolds and Presiding Elder J. G. Eckman. in the order given.

A literary and musical programme was rendered as follows: H. Eckman piano solo; paper, "Advance," Miss Berthu Maycock, solo; Miss Woolseifor, recitation.

Diplomas were presented to a large class of graduates from the Junior league, after which refreshments were ants, furnished amusement for the spectators by his sarcastic questions plied at the witnesses.

No defense was made before Alder.

Mr. Coleman.

They Had an Exciting Experience at Mines in Wilkes-Barre.

SOMETHING NOT ON PROGRAMME

They Were Given a Realistic Exhibi-Like-Party Arrived in This City for enlightenment. Last Evening-Will Visit Carbondale, Farview and Honesdale Today. The Names of the Excursionists.

Members of the New York Coal exchange, retail dealers, to the number of about one hundred, reached the city last evening and quartered themselves at the Wyoming. They arrived on a special train from Wilkes-Barre where some of the party participated in an exciting mine adventure which created a furore in the latter city and caused extra editions of the New York evening papers to be issued. The circumstance is given in last evening's Wilkes-Barre Leader as follows:

This has been a day of jadventure for the New York Coal exchange. The party, according to a prearranged plan, had gone to visit the Lehigh and Wilkes-Barre shaft at South Wilkes-Barre. Just as the party reached; there, when a few were already inside and others on the carriage, one of the boilers burst, scattering debris far and near. In a few moments the large fan supplying those inside with air was stilled; its pulso had ceased to beat and the life. supplying those inside with air was stilled; its pulse had ceased to beat and the life-giving ezone had been cut off. The roar of the explosion was terrible and as the near by residents rushed from their homes they saw the air filled with flying debris. Some who stood on the outside and near the boiler room were thrown to the earch, but looking upward they saw the huge mass of iron flying in the direction of the Lehigh Valley and Pennsylvania railroad tracks. It was a dangerous missile, but luckily it did no havin further than cutting the rails of the Pennsylvania road. The distance it cut the air was about 1,000 feet.

MUCH DESTRUCTION WROUGHT.

The sides of brick, the front, rear and roof of the boiler house were torn and shattered by the concussion, parts of the same being carried hundreds of feet away.

A number of cars of pea coal standing near the boiler room to be unloaded were turned over. There are twelve cylinder boilers and three sets of high pressure boilboilers and three sets of high pressure boilers with two in a set, making eighteen boilers in all. It was one of the cylinder boilers that exploded. The cause is a mystery and perhaps will never be explained, as Meehan and Alohalan, who had charge, say that everything was all right just before the explosion occurred. The officials, as it happened, were all on hand to pilot the visitors, and luckily so. They were ready in a moment to direct affairs.

Superintendent Lawall, L. A. Powellson, assistant New York sales agent of the Lekigh and Wilkes-Barre Coal company; President J. S. Smoot, of the New York Coal exchange; Charles T. Lyonard, chairman of the excursion committee, and Joseph Gordon, comprised a group standing less than 100 feet from the boiler at the time of the explosion. The exploded boiler passed almost directly over their heads, and Mr. Leonard, who was somewhat separated from the others had to fall for-Walsh, J. Jordan, R. Brader, Grant ward on his face to escape instant Walsh, Luke Evans and John Hayes, death.

the miners and a party of twenty New | ceipts for the property now in my pos-Yorkers who were imprisoned in the mine. The leader gives particulars of hibit each afternoon and their escape as follows:

A two inch hose was attached to a fire plug nearest the shaft and a stream of water sentrushing down. This was to cool the little air that was in circulation from natural ventilation. Willing hands stood ready around the month of the shaft to reader assistance, but were powerless. To go down was only to add more to conwas turned to the New York visitors, or part of them, who had descended the shaft just previous to the explosion. There were known to be eighteen of them. One car-riage load of nine, and the guide making ten had gotten to the foot, and were waiting for the rest of the party. The second carriage load of nine and the guide had gotten part way down the shaft when the power-steam-to move the vehicle on which they stood was shut off and there they stood. Luckily they stopped near a small opening through which they cut their way to the ladder and climbed to the surface. This party was accompanied by Shaftman Patrick Boyle who aided the party in reaching the surface.

IT WAS A HARD CLIMB.

The few who came up first gave out a nope that all would reach the surface provided an explosion of gas was not caused by some foolish fellow striking a light.

But it was a long climb. The shaft is 1,030 feet and the ladder at best only a contrivance to get to the surface as a last resort, was dangerous. It is built in sections of about thirty feet each, and at the top of each section is a landing in size about 3 by 6 feet. Up this 1,000 feet some of the men started, and one by one reached the top. They presented a sorry sight upon reaching the surface. They were pale, nervous and exhausted, with the

pale, nervous and exhausted, with the perspiration flowing from every pore.

Here they were helped out of the manhole by willing hands and taken into the engine house, where restoratives were supplied from the stock carried by the New York visitors. All were treated alike. Many, however, refused to take any of the brandy and a few old men said no to the profered assistance.

Of the New York party who had gone

no to the profered assistance.

Of the New York party who had gone down the shaft there were: A. F. Rice, H. Lucas, P. H. Rafferty, W. J. Conyngham, W. D. Statts, Ratze Bunke, T. F. Farrell, Patrick Curtis, W. F. Miller, John Golia, John Mayforth, William Brennan, H. Brierly, Frank Becker, Philip Becker, John Bunke and H. Lange. Captain Brodhead, of this city, was also down with the party.

As the New Yorkers reached the surface they found their companions awaiting them with faces blanched with the intensity of the excitement and pardonable fear. Mr. Lange was almost speechless when he reached the surface, and after gasping a request to wire his family that he was safe, fainted

from exhaustion and frieht. MR RICE RELEASED.

Many incidents might be mentioned In connection with the affair. A. F. Rice was the first to reach the manway exit. There he found the cover fastened, and after many ineffectual attempts to burst it open his efforts were heard by some miners who released him.

When the party arrived in Scranton all were talking of their experience. They had intended visiting four other mines in the vicinity of Wilkes-Barre, but, "Once was enough for them."

Last evening the party's special train carried them from the Jersey Central station to the lower steel mill, where several hours were spent in inspecting

the process of manufacture. At 8.30 o'clock this morning they will leave from the Delaware and Hudson Bridge street station for Carbondale, Honesdale and Farview. At the latter place lunch will be served by Caterer William Hanley. At 2 o'clock the party will return to this city and at 7 o'clock they will leave for New

The coal men began their trip from New York Wednesday morning in a special train over the Jersey Central road. J. S. Swisher, of this city, division passenger agent, and A. E. Detro,

chief engineer of the Susquehauna di-vision, accompanied the party. From Bethlehem, where a stop was made for dinner and to inspect the iron works, the run of 108 miles to Wilkes-Barre was made in two hours and thirty min-

utes.

All of the New Yorkers are loud in their praise for the courtesies and excellent management of their trip by Mr. Swisher. Those who have been in contact with the excursionists are in turn satisfied that they are a royal lot hey Were Given a Realistic Exhibi-tion of What a Mine Disaster is deavor to combine pleasure with a trip
